Paramus, NJ – August 25, 2022 -- Movado Group, Inc. (NYSE: MOV) today announced second quarter and six-month results for the periods ended July 31, 2022.

Fiscal 2023 Second Quarter Highlights (See table below for GAAP and Non-GAAP measures)

- Delivered topline growth of 5.1% or 10.5% on a constant dollar basis over second quarter fiscal 2022;
- · Expanded gross margin by 190 basis points;
- · Improved operating expenses as a percent of sales by 80 bps to 41.7%;
- · Generated operating income of \$30.7 million, or 16.8% of sales;
- Delivered an increase in diluted earnings per share of 27.8% as compared to the prior year period; and
- Maintained strong balance sheet at quarter end, including cash of \$203.1 million and no debt.

Efraim Grinberg, Chairman and Chief Executive Officer, stated, "We are very pleased with our strong second quarter results given the macroeconomic environment, highlighted by sales growth of 5.1%, or 10.5% on a constant currency basis, gross margin expansion of 190 basis points and an almost 25% increase in operating income. The quarter saw us deliver against our strategic initiatives centered on introducing compelling designs in watches and jewelry and continuing to elevate our digital marketing initiatives, which drove consumer demand for our powerful portfolio of brands around the world. To this end, even with foreign exchange headwinds, we generated a 15% increase in our international business with particular strength in Latin America, India, and Europe."

Mr. Grinberg continued, "We are very excited about our product innovation pipeline and marketing campaigns for the all-important holiday season. As we look ahead, we will remain disciplined in executing our strategy as we navigate an increased level of uncertainty in the second half of our fiscal year including global inflation, currency headwinds, rising interest rates and the elimination of domestic stimulus programs. The strength of our balance sheet and our variable expense-management approach position us well for the rest of the year and beyond, as we remain focused on delivering long-term sustainable growth."

In this press release, reference to "adjusted" results exclude the impact of the above charges and the charges described in the Non-GAAP Items section of the Company's earnings release for the first quarter of fiscal year 2023 in deriving the adjusted results for the six months ending July 31, 2022 and July 31, 2021. Please refer to the attached GAAP and Non-GAAP measures table for a detailed reconciliation of the Company's reported results to its adjusted, non-GAAP results.

Second Quarter Fiscal 2023 (See attached table for GAAP and Non-GAAP measures)

Net sales increased 5.1% (10.5% on a constant dollar basis) to \$182.8 million compared to \$173.9 million in the second quarter of fiscal 2022. The increase in net sales reflected growth in wholesale customers' brick and mortar stores and in Movado Company Stores. International net sales increased 15.3% as compared to the second quarter of last year. U.S. net sales decreased 5.4% as compared to the second quarter of last year.

- Gross profit was \$106.9 million, or 58.5% of sales, compared to \$98.5 million, or 56.6% of sales, in the second quarter of fiscal 2022. The increase in gross margin percentage was primarily the result of favorable changes in channel and product mix, partially offset by the unfavorable impact of foreign currency exchange rates.
- Operating expenses were \$76.3 million compared to \$73.8 million in the second quarter of fiscal 2022. Adjusted operating expenses were \$75.6 million for the second quarter of fiscal 2023 and \$73.0 million in the second quarter of fiscal 2022. This increase was primarily due to higher marketing expenses, payroll related costs and certain other operating expenses to support the increase in net sales. As a percent of sales, adjusted operating expenses decreased to 41.3% of sales from 42.0% in the prior year period primarily due to improved sales leverage.
- Operating income was \$30.7 million compared to \$24.6 million in the second quarter of fiscal 2022. Adjusted operating income for the second quarter of fiscal 2023 was \$31.4 million compared to an adjusted operating income of \$25.5 million in the second quarter of fiscal 2022.
- The Company recorded a tax provision of \$6.4 million compared to a tax provision of \$5.3 million in the second quarter of fiscal 2022. The Company recorded an adjusted tax provision in the second quarter of fiscal 2023 of \$6.6 million compared to an adjusted tax provision of \$5.5 million in the second quarter of fiscal 2022.
- · Net income was \$24.0 million, or \$1.05 per diluted share, compared to net income of \$19.4 million, or \$0.82 per diluted share, in the second quarter of fiscal 2022. Adjusted net income for the fiscal 2023 period was \$24.6 million, or \$1.07 per diluted share. This compares to adjusted net income in the second quarter of fiscal 2022 of \$20.1 million, or \$0.85 per diluted share.

First Half Fiscal 2023 (See attached table for GAAP and Non-GAAP measures)

- · Net sales for the first six months of fiscal 2023 increased 12.2% to \$346.2 million (16.5% on a constant dollar basis) compared to \$308.7 million in the first six months of fiscal 2022. The increase in net sales reflected growth in wholesale customers' brick and mortar stores and in Movado Company Stores. International net sales increased 24.1% as compared to the same period last year. U.S. net sales decreased 0.2% as compared to the prior year period.
- Gross profit was \$203.6 million, or 58.8% of sales, compared to \$172.7 million, or 55.9% of sales in the first six months of fiscal 2022. The increase in gross margin percentage was primarily the result of favorable changes in channel and product mix partially offset by increased shipping costs and the unfavorable impact of foreign currency exchange rates.
- Operating expenses were \$147.7 million as compared to \$134.8 million in the first six months of fiscal 2022. Adjusted operating expenses were \$146.2 million compared to \$133.1 million in the first six months of fiscal 2022. This increase was primarily due to higher marketing expenses, payroll related costs and certain other operating expenses to support the increase in net sales. As a percent of sales, adjusted operating expenses decreased to 42.2% of sales from 43.1% in the prior year period primarily due to improved sales leverage.
- Operating income was \$56.0 million compared to operating income of \$37.9 million in the first six months of fiscal 2022. Adjusted operating income was \$57.4 million compared to \$39.6 million in the prior year period.

- The Company recorded a tax provision in the first six months of fiscal 2023 of \$12.4 million as compared to a provision of \$8.6 million in the first six months of fiscal 2022. The Company recorded an adjusted tax provision of \$12.7 million compared to an adjusted tax provision of \$9.0 million for the first half of fiscal 2022.
- Net income was \$42.5 million, or \$1.83 per diluted share, compared to net income of \$28.8 million, or \$1.21 per diluted share, in the first six months of last year. In the first half of fiscal 2023, adjusted net income was \$43.7 million, or \$1.89 per diluted share compared to adjusted net income of \$30.2 million, or \$1.27 per diluted share.

Fiscal 2023 Outlook

Given the prevailing foreign exchange headwinds, the Company currently expects net sales to be \$780 million to \$790 million versus its previous outlook range of \$780 million to \$800 million. Based on the strong results for the first half of fiscal 2023, the Company now expects operating income to be at the high end of its previous outlook of \$125 million to \$130 million.

Specifically:

- · Fiscal 2023 net sales are currently expected to be in the range of approximately \$780 million to \$790 million. This represents growth of 6.5% to 8.0% from fiscal 2022 net sales.
- Gross profit is expected to continue to be approximately 58.0% of net sales.
- · Operating income is expected to be at the high end of its previous outlook range of \$125 million to \$130 million.
- In addition, the Company anticipates an effective tax rate of approximately 25%, assuming no changes to the current tax regulations.
- The outlook excludes approximately \$3.0 million of amortization of acquired intangible assets and deferred compensation for fiscal 2023 related to the Olivia Burton and MVMT brands.
- This outlook does not contemplate significant further impact of increasing inflation, geopolitical unrest or extended negative impact to supply chain and shipping costs, and assumes no further significant fluctuations from prevailing foreign currency exchange rates.

Quarterly Dividend and Share Repurchase Program

The Company also announced today that on August 25, 2022, the Board of Directors approved the payment on September 21, 2022 of a cash dividend in the amount of \$0.35 for each share of the Company's outstanding common stock and class A common stock held by shareholders of record as of the close of business on September 7, 2022.

During the second quarter of fiscal 2023, the Company repurchased approximately 208,200 shares under

its November 23, 2021 share repurchase program. As of July 31, 2022, the Company had \$30.9 million remaining available under the share repurchase program.

In this release, the Company presents certain financial measures that are not calculated according to generally accepted accounting principles in the United States ("GAAP"). Specifically, the Company is presenting adjusted gross profit, adjusted gross margin, adjusted operating expenses and adjusted operating income, which are gross profit, gross margin, operating expenses and operating income, respectively, under GAAP, adjusted to eliminate the amortization of acquisition accounting adjustments related to the Olivia Burton and MVMT acquisitions. The Company is also presenting adjusted tax provision, which is the tax provision under GAAP, adjusted to eliminate the impact of charges for the Olivia Burton and MVMT acquisitions. The Company believes these adjusted measures are useful because they give investors information about the Company's financial performance without the effect of certain items that the Company believes are not characteristic of its usual operations. The Company is also presenting adjusted net income, adjusted earnings per share and adjusted effective tax rate, which are net income, earnings per share and effective tax rate, respectively, under GAAP, adjusted to eliminate the after-tax impact of amortization of acquisition accounting adjustments related to the Olivia Burton and MVMT acquisitions. The Company believes that adjusted net income, adjusted earnings per share and adjusted effective tax rate are useful measures of performance because they give investors information about the Company's financial performance without the effect of certain items that the Company believes are not characteristic of its usual operations. Additionally, the Company is presenting constant currency information to provide a framework to assess how its business performed excluding the effects of foreign currency exchange rate fluctuations in the current period. Comparisons of financial results on a constant dollar basis are calculated by translating each foreign currency at the same U.S. dollar exchange rate as in effect for the prior-year period for both periods being compared. The Company believes this information is useful to investors to facilitate comparisons of operating results. These non-GAAP financial measures are designed to complement the GAAP financial information presented in this release. The non-GAAP financial measures presented should not be considered in isolation from or as a substitute for the comparable GAAP financial measures, and the methods of their calculation may differ substantially from similarly titled measures used by other companies.
